Rozge Cosmeceutical, Manufacturer of Health & Beauty Products

You may think about to create an on line shopping cart or an on-line catalogue to display your products and pictures. And you want to update the product detail, the specification, or the product pictures by yourself in the future. To create and develop a CMS based website is the best choice. We can help you out on the development and walk you through and train you to maintain the page.

More over, this CMS based website is optimized with search engines. The url names, title tag, html coding are optimized with keywords. As you should know, search engine optimized is everything to be keyword relevant.

Since this is an on-line catalogue website, to organized all the 50 products for the web site, we categorized them in beauty and health industry. There are Adult Care, Body Care, Breast Care, Eye Care, Hair Care, Nail Care, Skin Care and Diet Easy Weight Loss. Each product page links to 4 other items at the bottom listed as "you may also be interested in this/these product(s):" (as the image below).

All the products are listed as an on-line catalogue, and could be released to cooperate with on-line shopping cart. This rozge website is designed and published by end of September 2007.
