

Background color testing

This is a simple JavaScript example to fade out a background color using function and array...

Click to fade out Green

```
function fade(id) {
  var dom = document.getElementById(id),
      level = 1;
  function step () {
    var h = level.toString(16);
    dom.style.backgroundColor = '#FF'+h + h + h + h;
    if (level < 15) {
      level += 1;
      setTimeout(step, 100);
    }
  }
  setTimeout(step, 100);
}
function green(id){
  var dom = document.getElementById(id);
  dom.style.backgroundColor = '#009966';
}
```
