

## jQuery table effect - hover and background colors

```
$(function() {
  $("#tblwellness tr:even").addClass("stripe1");
  $("#tblwellness tr:odd").addClass("stripe2");

  $("#tblwellness tr").hover(
    function() {
      $(this).toggleClass("highlight");
    },
    function() {
      $(this).toggleClass("highlight");
    }
  );
});
```

```
.stripe1 {
  background-color:#CCCCb7;
}
.stripe2 {
  background-color:#e5e3f4;
}
.highlight {
  background-color: #ffcc00;
  font-weight:bold;
}
```

This is a table to demo the effect by using jQuery to assign the background colors on even and odd rows, and the highlight on mouse over effect. Click read more button to see the scripts and css.

```
$(function() {  
    $("#tblwellness tr:even").addClass("stripe1");  
    $("#tblwellness tr:odd").addClass("stripe2");  
  
    $("#tblwellness tr").hover(  
        function() {  
            $(this).toggleClass("highlight");  
        },  
        function() {  
            $(this).toggleClass("highlight");  
        }  
    );  
});
```

```
.stripe1 {  
    background-color:#CCCCb7;  
}  
.stripe2 {  
    background-color:#e5e3f4;  
}  
.highlight {  
    background-color: #ffcc00;  
    font-weight:bold;  
}
```
